

# Measurements Guideline

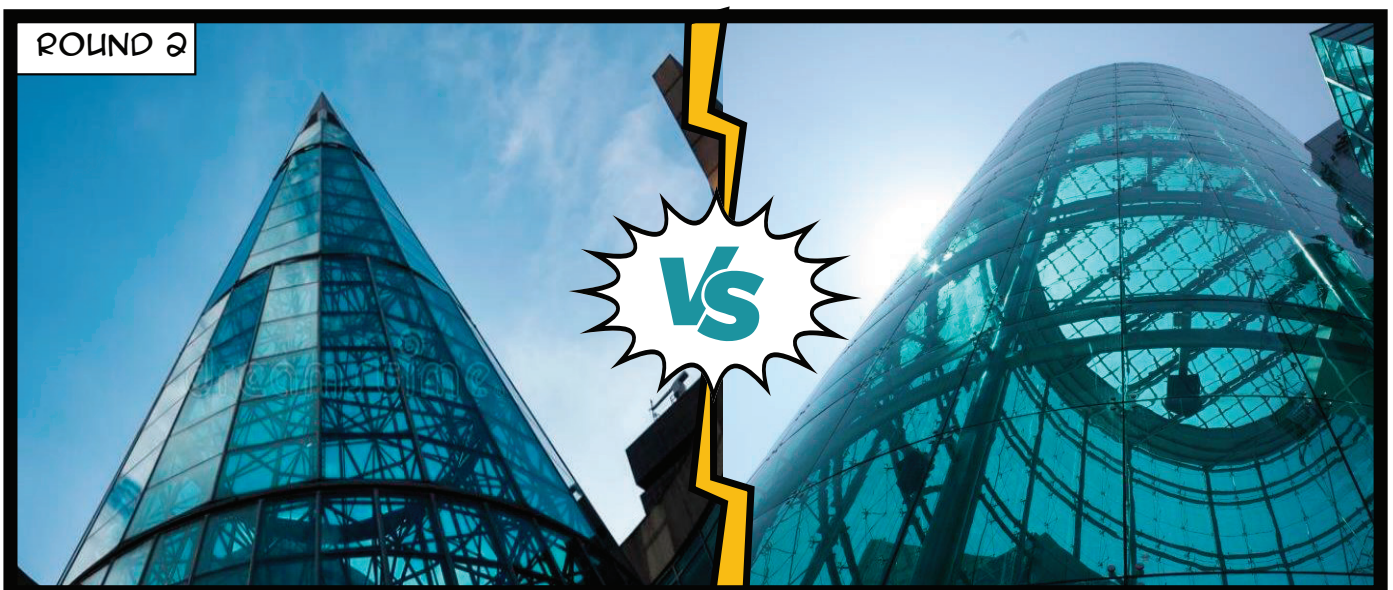

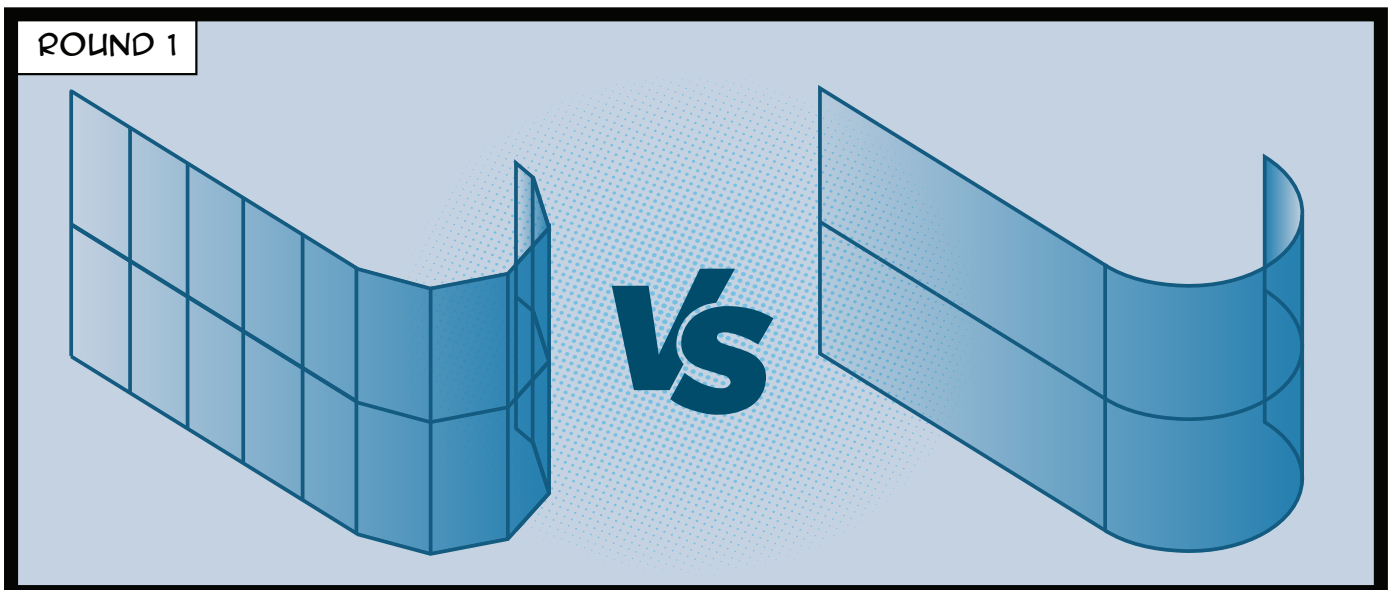

## Curved Glass

This document is a general guideline of manufacturing possibilities with our curved glass products. There may be cases where we can go beyond the sizes listed below, and instances when these general guidelines cannot be accomplished.

Please contact your Cristacurva sales representative to review your project details specifically and run feasibility trials if necessary.

**NOTE:** Cristacurva offers the following size limitations based on the specified curve type. The limitations cannot be interchanged between them.

## SEGMENTED VS CURVED

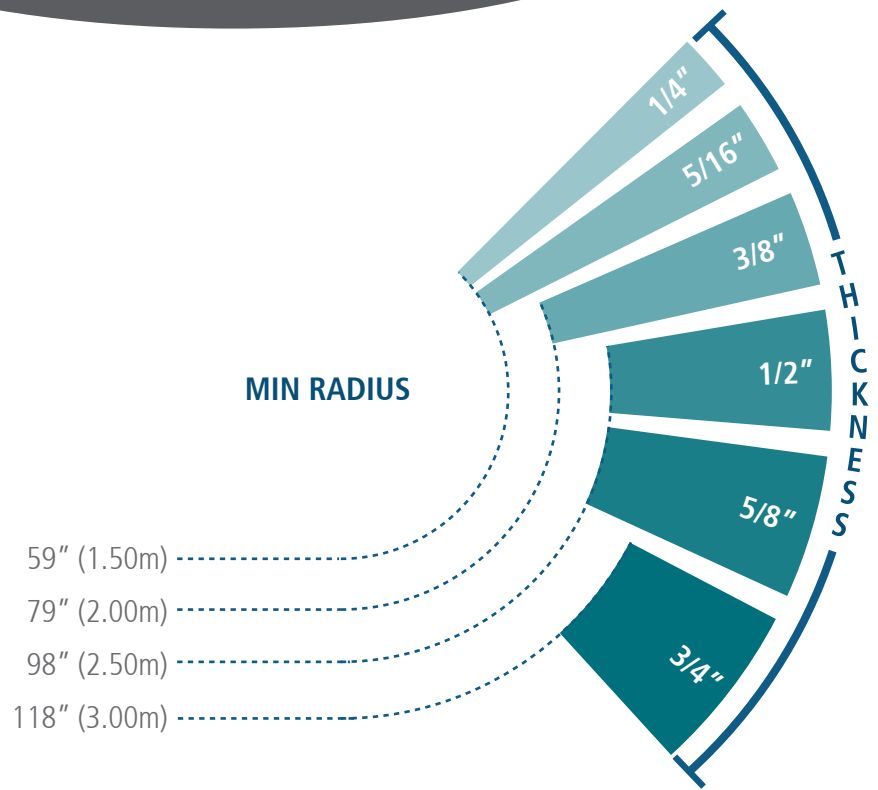

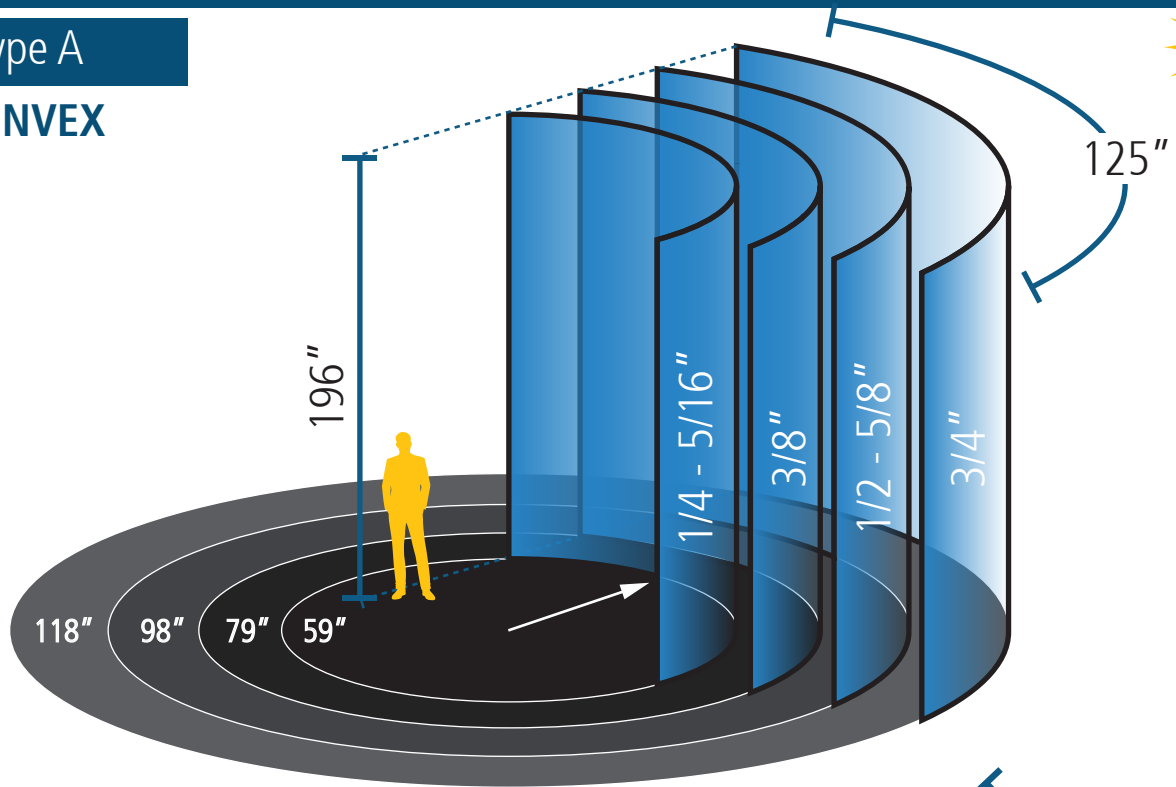

# Measurements Guideline

## TEMPERED

Type A  
CONVEX

CONVEX
